

ASSESSMENT MAPPING – BLKERE008

KEY: WQ = Written Question | PST = Practical Skills Task | PRJ = Project

Element	Performance Criteria	Assessed By
1. Establish the legal and regulatory challenges	1.1 Lead team to investigate and evaluate the differentiating characteristics between regulation and stewardship	PST A, B (a), C
	1.2 Investigate and evaluate the legal and just use of blockchain technologies in innovative use cases	PST A, B (g), C
	1.3 Determine key areas of global legal and regulatory focus in the context of blockchain technologies	PRJ A (f)
2. Define the role of regulation within blockchain networks	2.1 Establish regulators and regulations that apply within a blockchain system	PRJ A (d)
	2.2 Consult stakeholders to evaluate the role of regulation and governance in protecting consumers and citizens	PST A, B (b), C
	2.3 Identify strategies for meeting regulators obligations in a blockchain use case in consultation with stakeholders	PRJ A (e)
	2.4 Work with relevant stakeholders to identify the risks of regulating prematurely	PST A, B (c), C
3. Establish foundations for a blockchain governance network	3.1 Consult with stakeholders to identify ways to improve transparency and improve industry behaviour	PST A, B (d),C
	3.2 Lead team to analyse existing internet governance models for application to blockchain governance	PST A, B (e), C
	3.3 Lead the team to evaluate blockchain governance challenges in the areas of Platform, Application and Ecosystem	PST A, B (f), C

Develop a blockchain governance model for stewardship

	3.4 Identify the use of Global Solutions Networks in addressing global governance issues	PST B (e), C PRJ A (i)
	3.5 Report on existing internet governance models, challenges and the role of Global solutions Networks in solving challenges	PST C PRJ A (f)(g)(i)
4. Design a stewardship framework	4.1 Evaluate platform, application and ecosystem challenges for regulatory and governance impacts	PST B (f), C
	4.2 Develop a stewardship framework for a blockchain ecosystem to address identified platform, application and ecosystem challenges	PRJ A (a-i)
	4.3 Seek support and endorsement from senior management and ecosystem stakeholders	PRJ B
	4.4 Conduct regular evaluation and review and modify the stewardship framework where appropriate to achieve the objectives of the framework	PRJ A (j)

PERFORMANCE EVIDENCE

Evidence Required	Assessment Activity
Identify the legal and regulatory environment, and governance foundations for a blockchain ecosystem	PST B (a-g), C
Prepare a stewardship framework for a blockchain ecosystem	PRJ A (a-j)
Use critical thinking skills to evaluate information from a range of source theorists	PST B (a-g), C
Communicate effectively with people from diverse roles within an organisation	PST B (a-g)

KNOWLEDGE EVIDENCE

Evidence Required	Assessment Activity
Explain the concept of blockchain as a global resource	WQ 1
Explain blockchain as a new global resource	WQ 1
Explain the difference between governance and stewardship of a blockchain ecosystem	WQ 2
Describe legal and just uses of blockchain technologies	WQ 3
Describe key areas of global regulatory attention in the context of blockchain technologies	WQ 4
Explain the role of regulators in protecting consumers and citizens	WQ 5
Explain regulator obligations in a blockchain use case	WQ 5
Describe the risks of regulating pre-maturely based on lessons from the internet	WQ 6
Explain transparency of industries using blockchain	WQ 7
Explain governance challenges in the areas of platform, application and ecosystem	WQ 8
Outline the role of a Global Solutions Network	WQ 9
Explain stewardship of a blockchain ecosystem	WQ 10

Develop a blockchain governance model for stewardship
